Highway 92/82 Interchange Reconstruction Project Set to Begin

San Mateo County – A new project that will reconstruct and improve the State Highway 92/82 Interchange in San Mateo County will get underway on April 17, Caltrans announced today.

The project will widen the existing ramps, and reconfigure the existing ramps from a full cloverleaf to a partial cloverleaf. The new interchange will help alleviate the traffic congestion.

The project will also widen the sidewalk on State Highway 82 (El Camino Real) and provide a new Class Two bicycle lane between the ramp intersections.

The project will require night closures of Highway 92 lanes, and both day and night closures of the ramps and El Camino Real lanes. All day work will be done during non-commute hours. Drivers may experience some delays, and should allow for extra travel time.

The \$18 million project will finish in March, 2018.
